Re: City of Medicine Hat highly recommends that residents refrain from visiting public playground structures

Medicine Hat - MHPSD is proud to work with local partners to implement protective health measures to limit the transmission of COVID-19. In order to ensure appropriate physical distancing as directed by Alberta Health Services, the City of Medicine Hat highly recommends that residents refrain from visiting public playground structures. MHPSD is a proud partner of the City of Medicine Hat and appreciates the opportunity to bring this advisory to students, staff and families.

Play based learning and physical literacy are important components of the k-12 curriculum. MHPSD urges families and care givers to choose play based learning and physical literacy activities that respect physical distancing as defined by Alberta Health Services.

Refer to the AHS [COVID-19 info for Albertans](#) for all health related information and to mhpsd.ca for updates about the MHPSD response to COVID-19.
